Mr. Gary Baughman Hazardous Waste Facilities Unit Leader Colorado Department of Health 4210 East 11th Avenue Denver, Colorado 80220

Gentlemen:

Please find enclosed two (2) copies each of the Draft No Further Action Justification Document for Operable Unit No. 16 (OU16), the Low Priority Sites. The enclosed meets the Interagency Agreement (IAG) schedule date of March 4, 1992.

As the IAG negotiators expected, the assessment of documentation pertaining to sites 185, 192, 193, 196, and 197 concludes that these sites pose no risk to the public or environment, and that no further action is justified. However, sites 194 and 195 may require additional investigation. If so, DOE/RFO recommends that these sites be incorporated into an appropriate existing OU.

If you have any questions, please feel free to contact Robert H. Birk of my staff at 966-5921.

Sincerely,

ssistant Manager
